

## LOST CLASSMATES

This is a list of classmates for whom we have no current addresses. They are not lost. There are several websites that help find people. If anyone is interested in helping us to get more info, please do so and let me know if you do get any information. [tvitullo@icloud.com](mailto:tvitullo@icloud.com)

Go to anywho.com and put the person's name in. This is a free site, you will get hundreds of names, but the age is included so that should narrow down the list. Of course you will be flooded with other sites wanting you to use their sites which charge you a fee. Do not use them. Also, look on Facebook or just Google the name.
